**Balloons and Fleet Management Receive Support
in Senate Environment and Natural Resources
Committee**

At the **Senate Environment and Natural Resources Committee**, members also discussed two additional bills that could have a positive impact the environment.

Millions of balloons are released in the United States each year. Most commonly, these balloons fall along coastlines, beaches, and into waterways. Balloons contribute to plastic pollution problems and harm marine life when accidentally ingested.

SB 602, Release of Balloons, filed by Sen. DiCeglie (R-Indian Rocks), with House Companion **HB 321** (Rep. Chaney (R-St. Pete Beach)), is designed to crack down on balloon pollution in Florida. The outdoor release of balloons inflated with a gas that is lighter than air would be banned. The bill passed with unanimous support.
